

MINING NOTES

ARIZONA COMMERCIAL.
Holders of this stock will have to make up their minds by the 15th of October as to whether or not they will accept the proposed form for reorganization. It will need an assessment of considerable proportions, and assessments at this time are not popular. It has been a great disappointment to the many who were led to believe the mine was a great one.

QUEEN IN PIMA COUNTY.

(Tucson Star).
That the Copper Queen Consolidated Mining company continues to have faith in the property in the Old Hat district, contiguous to this city, is indicated by the fact that payments have been made on the claims held there under option. An amended agreement with F. Geesman was filed for record in the county recorder's office here yesterday.

The agreement just filed involves the Eagle, Copper Peak, York, Engle No. 2 and Golden Peak No. 2 claims in the Old Hat district of the Catalina mountains. Thus far \$4,250 has been paid on the claims, one payment having been made September 1. Another payment is to be made on February 15, 1912, and the balance of \$59,750 will be paid on August 15, 1912.

The Geesman property was optioned by the Copper Queen company at the same time as the Leathwood, Lovell and Reid claims, which have likewise been partially paid and the balance extended. It is stated that the Copper Queen company, now operating at Apache camp, has found the claims to be good ones, and will continue the development work steadily and rapidly. It is to this property that a movement has been started to have a highway constructed from this city, in order that the business of the camp, which now goes to the other side of the mountains, will come here.

THE SHATTUCK.

Concerning the Shattuck-Arizona property, from Ore has this to say: This Bisbee property has its debts paid and over \$300,000 in its treasury. It will soon commence the work of erecting its own smelter in Sulphur Springs valley, near Douglas. The mine has been practically idle for several months owing, it is said, to the low price of copper.

MIAMI.

Miami is making, according to reports, about 1,800,000 pounds of matte per month. Just what the cost is it is yet too early to tell, as it will take the company about a year to get everything running smoothly. There has been a very heavy expenditure in getting the property developed and equipped, many millions, and a very big tonnage, at present copper prices, will have to be secured to earn a fair interest upon the investment.

Operations at Miami are being closely watched by copper men in general, as here will be a test of the real worth of the porphyritic ores of the Southwest country, or of the Globe camp, where Miami is located. There are several other properties in that immediate neighborhood that are now being developed preparatory to equipment and copper production. Of these Live Oak is one in which many Michigan people are interested, and from which reports of large tonnage already proved, have been steadily coming. It is also claimed for this property that its ore will average better than those of the Miami, so that Miami's accomplishments will serve as a guide for the Live Oak people. Inspiration is another of the mines of that field which is getting in shape for copper output. At one time there were rumors that Inspiration would join with Live Oak and others in forming one big concern which was to save money by thus consolidating, but evidently the plan, if it were ever considered, has been given up. Consolidations do not seem to be popular in these days.

THEY GO TOGETHER.

Orison Sweet Marden, the distinguished editor and author of New York, said in a recent address on success:

"The advice given to the unsuccessful is often useless because it can't be followed out. Thus a millionaire, twirling his massive gold watch chain, said to a man in a frayed collar and a patched coat:

"No, my friend, I can't give you a job. It has a ready, been filed. I can, however, give you a piece of advice, and I think you need it. It is this—a spruce appearance is absolutely essential nowadays to business success."

"The shabby man as he took up his gray hat to depart, answered with a sad smile:

"Yes, it is true that a spruce appearance is essential to business success, but I find it also true that business success is essential to a spruce appearance."

FIVE HAVE PAID FOR DESERT RACE

Ten More Automobiles Will Be in Los Angeles to Phoenix Run

PHOENIX, Ariz., Oct. 12.—Five of the fifteen automobiles entered in the famous Los Angeles to Phoenix road race have already paid their starting fee and made test runs over the proposed route. The event is one of the big features of the seventh annual Arizona Fair, which this year begins at Phoenix on November 6th. When this race was first proposed there were many of the automobile enthusiasts who declared that the event would be short lived on account of the extreme handicap bound to be encountered on the journey. In the place of the race losing its popularity, it has gained and today is known all over the world. This is the fourth annual race.

The cars so far entered are the Buick, Fiat, National, Apperson, Franklin, E. M. F. Co. and the Cole. There are, however, at least ten other cars which have been prepared for entry by their agents. The drivers are all well known and daring drivers. Nikrent will drive the Buick; Tetzlaff the Fiat; Herlick the National; Cortis the Apperson; Hamlin the Franklin and Dunn the Cole.

The race will start from Los Angeles Saturday night, November 4th, and all of the cars should reach Yuma some time Sunday in time to spend the night there, the last time being deducted from the time charged to the cars in the total hours taken to journey from Los Angeles to Phoenix. An early start will then be made from Yuma Monday morning which should land the cars in Phoenix at about noon Monday. The finish will be in front of the grand stand at the fair grounds.

Numerous prizes have been offered the winner, the most attractive individual prize being a beautiful silver cup valued at \$750, offered by the Automobile Club of Los Angeles.

The money prizes are \$2,000 for the best time made between Los Angeles and Phoenix, \$1,000 for the best time when San Diego is passed; \$500 for the best time to El Centro, California, and \$500 for the best time to Yuma. These different cash prizes are divided 70 per cent to the first car, 20 per cent to the second car and 10 per cent to the third car.

Last year the race course was 412 miles and the time made was 75 hours and 30 minutes. The course this year has been changed and is 332 miles long. There have been various estimates as to the probable time all the way from sixteen to twenty hours.

While the road race finish is the automobile feature of the fair, there are other events nearly as interesting. An whole afternoon of fair week being devoted to auto racing. Friday is the day set apart for these races and in the 25 mile race, according to George Purdy Bullard who is superintendent of the auto day events, there will be at least three cars start, any one of which is maybe of going 125 miles an hour.

A DISAPPEARING TYPE.

Mrs. E. H. Harrison, at a dinner in New York, said of the begonia letter machine:

"I am overwhelmed with begonia letters. I received 5000 begonia letters before I started on my recent Western trip. It isn't unusual for me to receive 100 begonia letters a day. And most of them are from men. Women have a finer bolder spirit than they used to have. The clinging, babyish type of woman is disappearing—the type of woman, I mean, who writes begging letters, and who, if married, has for her motto:

"Laugh, and the world laughs with you. Weep, and you get what you want."
